

Hotel La Perla

2020 Update + Health & Safety Protocols

La Perla

famiglia Costa

PLAN TO RE-OPEN:

The hotel will reopen for the 2020 summer season on June 29th and will close on September 20th.

SERVICES:

All hotel services such as restaurants, wellness area, outdoor areas and daily hiking program will be available.

HEALTH & SAFETY PROTOCOLS:

Before opening, the entire hotel will be completely disinfected. Both surfaces and the air in all areas, including our rooms, will be disinfected using stabilized hydrogen peroxide atomizers which remove bacteria, spores, ferments, and viruses. On-going protocols include:

- Guests can check in online to avoid spending time at the check-in counter upon arrival.
- All hygiene and safety protocols will be respected; we will sanitize every room as soon as guests check out, ensuring the next guest(s) finds a sanitized and safe environment. Daily cleaning will take place using specific cleaning products to sanitize the surfaces on a daily basis.
- Our restaurants will only admit guests based on the number of available tables in line with existing regulations. We will only serve drinks at the counter if there is a 2-metre distance between guests. Tables will be placed to maintain a 2-metre distance between people and a 1-metre distance between the backs of people between tables. These measures apply to everyone who does not belong to the same household. We have already tried and tested everything by measuring the available space – by using other dining rooms, the Bistrot and the outdoor area we will not face any problem whatsoever in complying with these measures.
- Breakfast will be à la carte. No buffet will be available, and the same measures as those found in the restaurant(s) will apply.

GOOD TO KNOW:

We want advisors and their clients to feel confident that the Costa Family and the entire La Perla staff will do their best to guarantee the safety protocols that will allow our guests to live an authentic vacation with no stress, just Dolomite silence and a tailor made hospitality!
